EXPERIENCE

Full Stack Web Developer Gruham.ai

May 2023 – Present
Remote Hyderabad, India

- Pioneered the integration of a chat feature, enhancing homeowner and designer real-time communication, thereby boosting user engagement.
- Engineered front end optimizations, achieving a 75% reduction in initial load times and a 50% decrease in unnecessary code, enhancing overall performance and user experience significantly.
- Proficiently integrated Firebase push notifications, enhancing user engagement and delivering timely updates.
- Engineered live stream functionality for interactive events and seamless event broadcasting.
- Worked on reels feature to enhance user engagement by showcasing short and engaging video content.
- Developed real-time activity feeds, enriching user interactions and keeping them informed.
- Utilized Express.js for backend development, enabling efficient server-side operations and smooth data handling with MongoDB and PostgreSQL as the databases.
- Collaborated with a team to design and develop a user-friendly, modern React frontend.
- Implemented AWS Lambda functions for image optimization, improving load times and user experience.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Python, C/C++

Frameworks & Libraries: React, Redux, Zustand, NextJs, Tailwind CSS, NodeJs, ExpressJs, Socket.io, OAuth 2.0, Passport.js, Ably, Stripe, Razorpay, Framer motion

Databases: MongoDB, Supabase, MySQL, PostgreSQL

Developer Tools: Git, Vs Code, Chrome Dev Tool, Postman, Jenkins, Thunder Client, Github, Bitbucket, Jira, Trello, Netlify, Vercel, Figma, MongoDB Compass, MongoDB Shell

Cloud Services: AWS (Amplify, Lambda, S3, CloudFront), Firebase, Supabase

PROJECTS

BestDeal | React, Node.js, MongoDB | December 2022 – February 2023

- * Established robust user authentication using Firebase, ensuring secure access and data protection.
- * Engineered comprehensive dashboards for both admin and users, enhancing user management and experience.
- * Ensured responsive design and enabled product, order, and shipment management with features for adding, deleting, editing, and searching items directly from the dashboard.
- * Integrated Stripe for seamless and secure payment processing.
- * Developed RESTful APIs for efficient frontend-backend data communication.

Inventory Management | React, Node.js, MongoDB, AWS Amplify, Lambda | June 2023 – Aug 2023

- * Implemented user authentication with email/password and email verification using Firebase.
- * Developed a comprehensive inventory management system enabling sellers to create shops, manage teams, and products efficiently.
- * Implemented team and supplier management modules for seamless product creation and inventory control.
- * Integrated discount management and automated order processing, including integration with Steadfast Courier
- * Designed and deployed an admin panel with features for account management, order oversight, and administrative controls.

EDUCATION

Daffodil International University
Bachelor of Science in Computer Science and Engineering

Dhaka, Bangladesh
